Dear Curt, Barry, and Michael,

Attached is EPA's cover letter and supporting technical document summarizing our action on the Spokane Tribe's 2010 revised water quality standards submittal. We sent this to the Spokane Tribe yesterday and we apologize for the delay in sending this to you (I thought I had hit send earlier this morning).

We are not planning to do any proactive press outreach but are prepared to respond to any inquiries we receive. I've attached our desk statement so you are aware of what we may initially provide to callers. Dan is on vacation for the next two weeks so please feel free to contact me if you have any questions.

Have a nice weekend and happy holidays!
